1. (original) A multi-speed transmission comprising:

an input shaft;

an output shaft;

first, second and third planetary gear sets each having first, second and third members;

 said input shaft being continuously interconnected with a member of said planetary gear sets, and said output shaft being continuously interconnected with another member of said planetary gear sets;

 a first interconnecting member continuously interconnecting said first member of said first planetary gear set with said first member of said second planetary gear set;

 a second interconnecting member continuously interconnecting said second member of said first planetary gear set with said first member of said third planetary gear set;

 a third interconnecting member continuously interconnecting said second member of said second planetary gear set with said second member of said third planetary gear set;

 a first torque-transmitting mechanism selectively interconnecting a member of said first or second planetary gear set with a stationary member;

 a second torque-transmitting mechanism selectively interconnecting a member of said second or third planetary gear set with said stationary member;

 a third torque-transmitting mechanism selectively interconnecting a member of said second or third planetary gear set with said stationary member;

 a fourth torque-transmitting mechanism selectively interconnecting a member of said first planetary gear set with a member of said second or third planetary gear set;

 a fifth torque-transmitting mechanism selectively interconnecting a member of said second planetary gear set with a member of said first or third planetary gear set;
